Cuba: How to Improve Socialist Economy

Speaker: Jorge F. Soberón Luis - Honourable Consul General of Cuba in Toronto

Since the publication of the “**Draft Economic and Social Policy Guidelines for the Party and the Revolution**” was published in Cuba last year, numerous debates, discussions and mass meetings have been taking place all throughout the country, with the goal of determining the future approach that Cuba’s leadership should adopt in order to advance and to perfect the socialist economy, in such a way that will prove to be a benefit to everyone.

Unlike any other country, whereby such life-changing decisions are dictated from ‘above’, without taking into consideration the people’s inputs, Cuba is, once again, distinguishing itself, by ensuring that the Cuban nation is fully involved in the process of developing the directions which the economic policies shall take. Enjoy an update and analysis with an audio/visual presentation followed by a discussion and Q&A.

U.S.-based terrorism against Cuba and the case of the Cuban Five

Speaker: Lorne Gershuny - Attorney at Law

- Why has U.S.-based terrorism against Cuba not stopped?
- Why are international terrorists such as Luis Posada Carriles harboured in the U.S. while the Cuban Five, who were exposing their violent crimes, are still behind bars?
- How can we help in the fight to bring them home to their loved ones?
- Why does the Cuban Five’s incarceration concern us here in Canada and why should we be engaged in the struggle to free them?
