

# MEDIA BLACKOUT

Exposes complacency in U.S.-based  
terrorism against Cuba

**3,478** Assassinations!

**2,099** Permanently injured!

**FIRST** terrorist attack on a civilian airliner in this hemisphere leaves  
**ALL 73** passengers on board **DEAD!**

**TOURIST** from **CANADA MURDERED** in the terrorist bombing of a  
Havana hotel in 1997!

All this and worse acts, perpetrated by U.S.-based terrorist groups, in a span of over 50 years, made possible by the explicit consent and the financial and strategic support of the U.S. government, with the sole purpose of overthrowing another country's political system while the mainstream media watches complacently, leaving people in the U.S. and Canada  
**IN THE DARK!!!**

**FIVE HEROES** Saved Thousands, **IMPRISONED** in the **U.S.** after  
risking their own lives by infiltrating these terrorist groups in order to prevent further attacks against their country and others!  
September 12th marks the 13th year of the unjust imprisonment of these anti-terrorist FIVE HEROES, just one day after another  
anniversary of the vile terrorist attack against the twin towers, so... WHY IS THE MEDIA SILENT?
